### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Richard Marsh on 07/08/2004.

2. The application has been amended as follows:

Claims 20-28 have been canceled.

In claim 1, lines 2-5, the language "creating an image of a decoration having features specific to a substrate to be decorated, said features derived from a decorative molding substrate previously wrapped with a decorative molding wrapping foil wherein said previously wrapped substrate is substantially equivalent to said substrate to be decorated" has been deleted and replaced with --wrapping a first wrapping foil around a first substrate, removing said first wrapping foil from said first substrate, said removed first wrapping foil having permanent features resulting from contours in the surface of said first substrate, creating an image of a decoration by scanning or photographing said removed first wrapping foil--.

In claim 1, line 12, after "a", first occurrence, --second-- has been inserted.

In claim 1, line 12, after "said", --second-- has been inserted.

In claim 1, line 13, after "a", --second-- has been inserted.

3. The above changes to claim 1 have been made in order to patentably distinguish the claims above the prior art of record. Claims 20-28 have been canceled in order to cancel non-allowed claims and allow the application to proceed to issuance with respect to the allowed claims.

4. The following is an examiner's statement of reasons for allowance:

The primary reason for the allowance of claim 1 is the limitation of wrapping a first wrapping foil around a first substrate, removing said first wrapping foil from said first substrate, said removed first wrapping foil having permanent features resulting from contours in the surface of said first substrate, creating an image of a decoration by scanning or photographing said removed first wrapping foil, duplicating the image thereby creating a duplicate image, overlaying a portion of said duplicate image over said image in one transition zone thereof, and importing said overlapped repeating image into a printing process, in combination with the other claimed structure.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kevin D. Williams whose telephone number is (571) 272-2172. The examiner can normally be reached on Monday - Friday, 8:30am - 6:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Andrew H. Hirshfeld can be reached on (571) 272-2168. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
